

## (Mobile App) How to View AI Designs

1. **Open the Sales Lead** from the **Sales** tab, locate the customer card (e.g., *Murphy, Test-Randall*). Tap the **AI Design** icon in the top right corner of the card or tap the customer's name to open their profile.

2. **Access AI Visualization** Once inside the customer's profile, scroll down to the **AI Visualization** banner (located just above the Media section). Tap this banner to enter the design gallery.

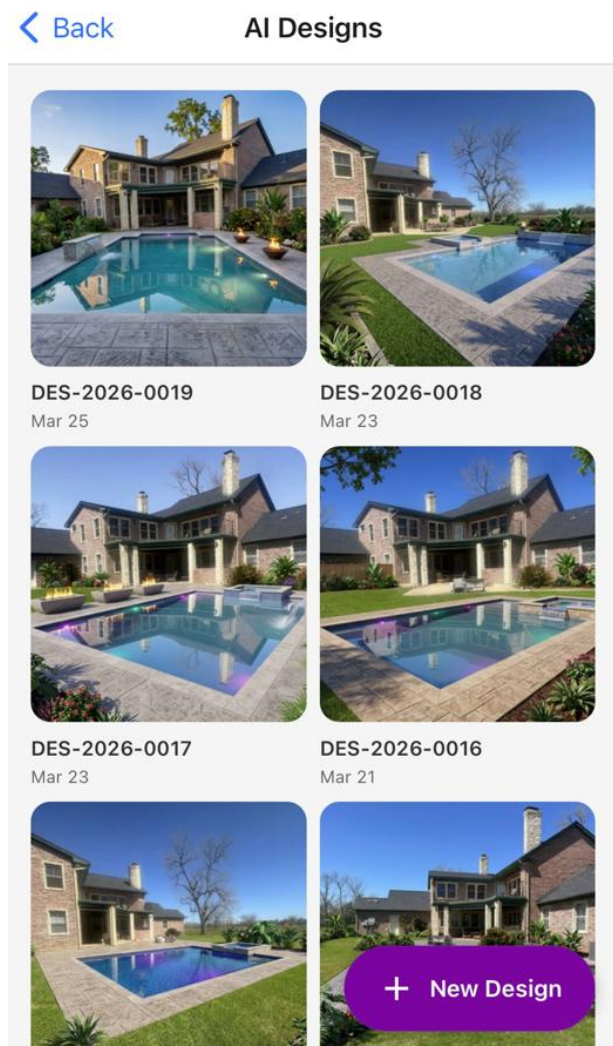

- **Browse the Gallery** You will be directed to the **AI Designs** screen. Here, you can view all designs created for this lead, organized by their design ID and the date they were generated.

### 3. View or Create

- **To View:** Tap on any individual image to see a full-screen version of the AI-generated pool visualization.

○

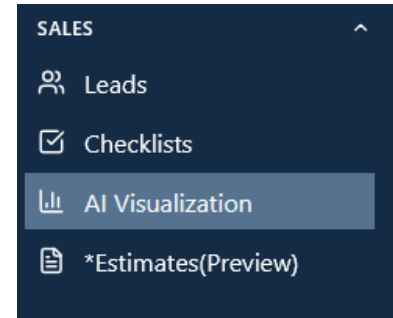

- **To Create New:** Tap the purple **+ New Design** button at the bottom of the gallery to start a fresh visualization.

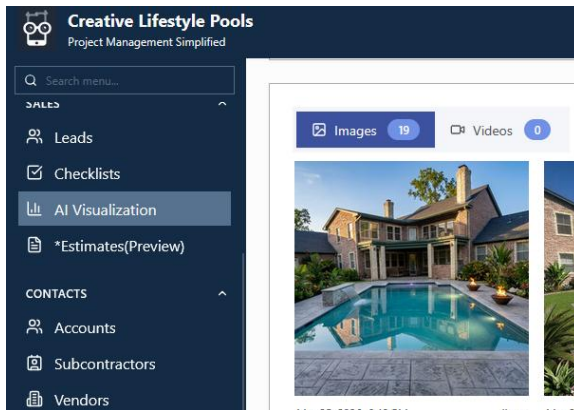

- **Media Shortcut:** You can also find these images by tapping **View All** in the **Media** section of the lead's profile, though the AI Visualization banner is the fastest way to see the full history.

## (Web Portal) How to View All AI Designs

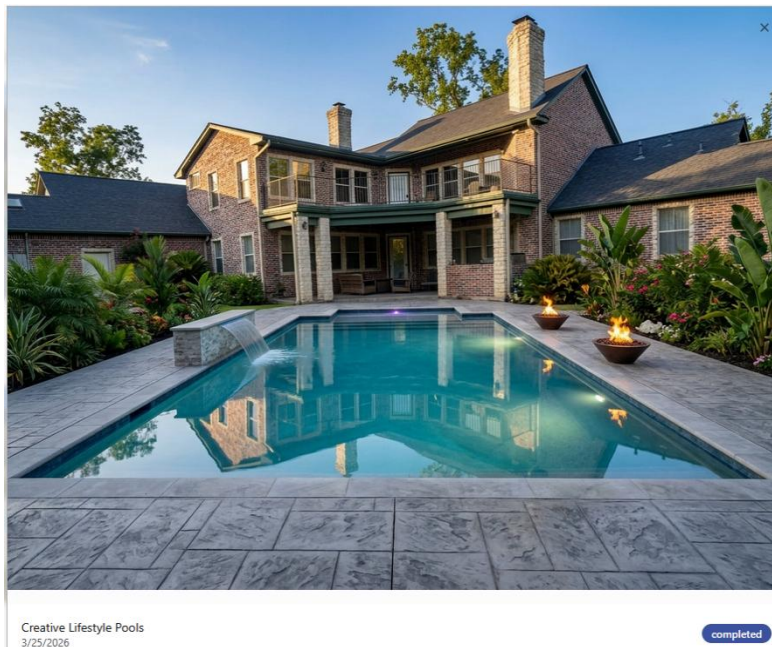

1. **Navigate to AI Visualization** On the left-hand sidebar menu, look under the **SALES** section and click on **AI Visualization**.

2. **Browse and Identify Designs** The gallery displays thumbnails of all past designs.

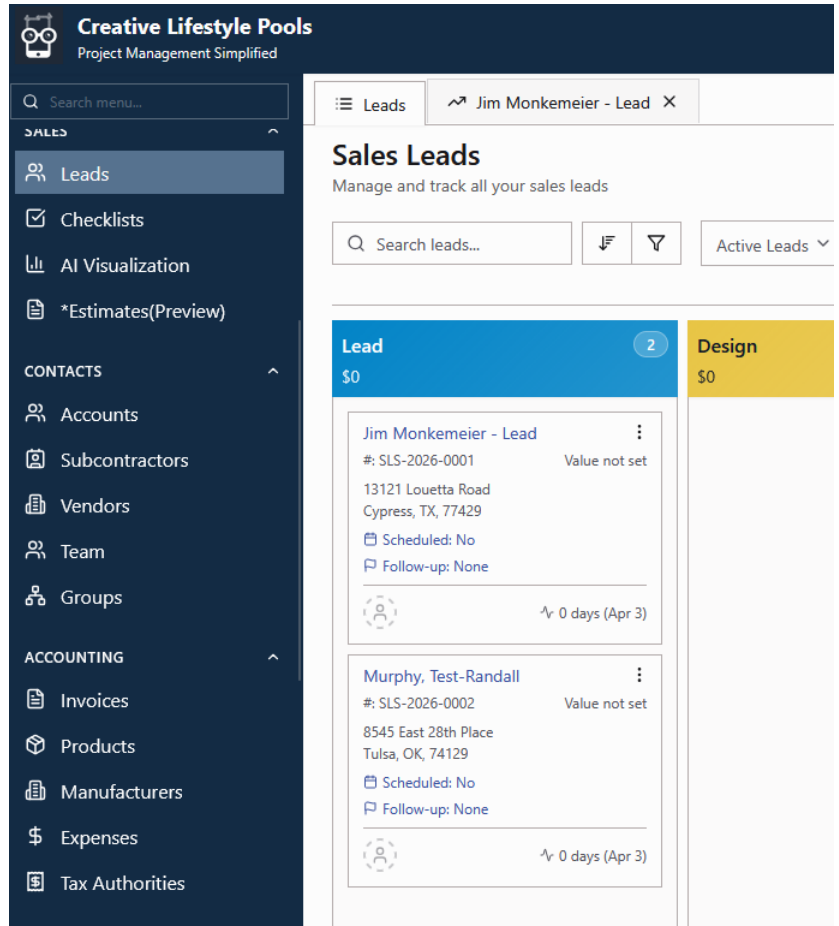

3. **Expand an Image** Click directly on any thumbnail to open a high-resolution preview.

## (Web Portal) How to View AI Designs via Sales Leads

1. **Access your Leads In the left-hand sidebar**, click on Leads under the SALES section. This will open your list of active sales opportunities.

The screenshot shows the Creative Lifestyle Pools web portal. The left-hand sidebar is open, displaying the SALES section with options: Leads, Checklists, AI Visualization, and \*Estimates(Preview). The Leads option is selected. The main content area shows the Sales Leads section with a search bar, filters, and a list of leads. The lead 'Murphy, Test-Randall' is highlighted.
